*“Comprehensively covers the theory and key skills required to collect blood from neonates / babies and children”*

## Medical Terminology for Healthcare Professionals Accredited and Nationally Recognised eLearning Course

**LOYALTY PRICE £79.00**  
(NORMAL COURSE PRICE £149.00)

**USE CODE  
MTH70**

**Key points in building medical words:**

There are four fundamental elements in medical terminology:

- The Prefix (= before)
- The Word Root
- The Combining Form
- The Suffix (= after)

For example:  
The medical term **prenatal** is created by:  
Joining the prefix **pre-**  
to the word root **nat**  
and then adding the suffix **-al**

A Combining Form, when used, is the Word Root plus a vowel which is usually an "o". It is easier to say and pronounce. Combining Form

- Easy to follow and designed to be fun to learn
- OCN Accredited at Advanced (Level 3) awarding 2 credits
- Essential for most healthcare professionals

### Is this course for me?

If you are either currently working in the healthcare sector or plan to in the foreseeable future then this is a “must have” addition to your C.V. There are few specialities that don't use medical terminology, but this is particularly valuable to the following sectors:

- Phlebotomists
- Medical Secretaries
- Care Support Workers
- Ward Clerks
- Clinical Secretaries
- GP Practice / Surgery Staff

*“Learn how to use, understand and speak the language of healthcare professionals”*

### Instalment options available for all courses

Enrol at the online discounted rate for only **£30 deposit** and pay the balance in monthly instalments (course link(s) are provided to you after all instalments have been processed)
